

## LET'S PRAY On Christmas Eve

**The news of this past weekend has been difficult to digest for so many people. It will have an impact as we move into 2021. Covid is determined to wreak havoc and bring pain and hurt across our Nation.**

I confess my disappointment in not hearing someone with authority in National church leadership, suggesting we make this an urgent matter for prayer. I have therefore decided to try and raise the Prayer Profile by suggesting that we spend time praying for this crisis at 7.00.p.m. on Christmas Eve.

Prayer changes things, and if you agree, please spend a few moments on Christmas Eve at 7.00.p.m., asking God to intervene.

**What can we pray for:**

- 1. Pray for the virologists, epidemiologists and those who are trying to understand how this virus mutates.**
- 2. Pray for those in leadership who I suspect are running out of human wisdom, and yet are tasked with making huge decisions.**
- 3. Pray for the NHS, the Covid specialists, patients who are ill, and individuals and families who are deeply affected, at a number of levels, by this disease.**
- 4. Pray, in the name of Jesus, against the virus, that God will intervene and halt its spread.**

Many of you will want to add to these prayer pointers and these are only given as a prompt.

These are difficult days, but just as we clapped together, we can pray together. Prayer can turn the tide so pass this message on to friends and your fellowship group.

**Pray with expectation and let's see what God will do.**

2 Chronicles. 7 v.14.
